

# Make your own pinwheel!

April is child abuse prevention month!

## Get Started:

1. Cut out the pinwheel square.
2. Cut along the four dotted lines, stopping about 2 inches from the center.
3. Take one corner from each section (marked with a circle) and gently bend (don't fold) it toward the center. Skip every other corner.
4. Push a straight pin through all four bent corners and then through the center.
5. Attach the pin to the eraser of a pencil or a straw.
6. Find the wind and watch your pinwheel spin!

Join us in raising awareness!

Make your pinwheel, display it, and share a photo using **#GIVEAVOICE**
